# CAIFS

INSTITUTE OF TECHNICAL SKILL DEVELOPMENT

## About Us

CAIFS bridges knowledge with practical experience in the electronics sector by offering hands-on training through real-time projects. Guided by expert mentors, our structured courses combined with on-job learning empower candidates with technical skills, industry insight, and the confidence to contribute effectively to any organization.

### Our Vision

To create a future driven by skilled and well-developed engineers who are equipped to lead and innovate in the evolving technological landscape.

### Mission

Our mission is to contribute to nation building by empowering students through industry-focused courses that develop their technical skills, practical experience, and confidence preparing them to become highly competent skilled professionals.

# TRAINING & DEVELOPMENT PROCESS

**1 Onboarding:**  
Job-interview-style admission to ensure right-fit candidates.

**2 Coaching:**  
Delivered by expert faculty in IT infrastructure.

**3 Practical Exposure:**  
Advanced technical labs + industry job-training experience.

**4 Evaluation:**  
Conducted by the National Skill Development Corporation (NSDC).

**5 Certification:**  
NSDC-recognized certificate, enhancing employability across India and abroad.

# TURNING REAL PROJECTS INTO REAL CAREERS

CAIFS is born from the legacy and expertise of CAITS Info Solutions, a leader in ELV Solutions providers. With years of delivering real-world projects across industries, CAITS has built a reputation for technical excellence and innovation. By leveraging CAITS' real-time project experience, CAIFS offers students something unique training that reflects the realities of the industry.

Students are exposed to the same tools, technologies, and workflows used in live client projects.

Learning is enriched by case studies and scenarios directly taken from CAITS' professional assignments.

Faculty and mentors bring practical insights from field execution, not just textbooks.
